Dear Sir:

I believe that in order to maintain a clear line of communication between the Receivership Estate, yourself and this Superintendency, it is appropriate that I write to you and establish a direct link between ourselves, so as to be able to avoid any misunderstandings going forward.

As you are certainly aware, the Superintendency of Banks of the Republic of Panama, based on articles 131 and 132 of Panama's Banking Law, has taken over full administrative and operational control of STANFORD BANK (PANAMA), S. A., (the Bank) beginning at 7:00 am on February 18, 2009. As a consequence, this Superintendency has assumed the administration of the Bank and designated Mr. Ramón Martínez Stagg as Interim Administrator. A team of examiners from the Superintendency has been in the Bank since. We enclose an authenticated copy, duly apostilled, of Resolution S. B. P. No. 057-2009 for your reference and also copies of the preliminary Bank's Balance Sheet as of February 26th, 2009, which shows Total Assets of US\$191,743,208, Total Liabilities of US\$172,098,912 and Stockholder's Equity of US\$19,644,296. We also enclose other additional information that may be useful.

On March 3, 2009, we personally visited Messrs. Ethiopis Tafara and Alberto Arévalo, and Miss Elizabeth Jacobs of the U.S. Securities and Exchange Commission to set up working arrangements to deal with the management of this case to the extent it involves the Bank. We provided them with the same financial information (as of 26th of February, 2009) which we have provided you. To that same end, the Interim Administrator has maintained contact with Messrs. Victor Hernandez and Jorge de la Garza, acting on behalf of Mr. Richard Roper, from the legal firm Thompson and Knight. I have also received an e-mail from William F. Stutts from the legal firm Baker Botts LLP.

SBP-DS-N-1417-2009

Our intention is to obtain from the Court, through you, the release of the assets of STANFORD BANK (PANAMA), S. A. from the custody of the Receivership Estate, so that they may be promptly liquidated at the least loss possible for the benefit of the legitimate depositors and other legitimate creditors, with the clear understanding that any and all amounts representing stockholders' equity, after satisfying all legitimate liabilities, will revert to the custody of the Receivership Estate. As we stated to the SEC officials, this Superintendency is solely interested in safeguarding the interests of the legitimate depositors and creditors. To this end, we intend to work with them and with you to clarify the financial information available.

There are several points that we should highlight with respect to Panama's Banking Law and our responsibilities and other matters related to this case:

1. STANFORD BANK (PANAMA), S. A. is a corporation organized under the laws of the Republic of Panama, registered in the Public Registry, microjacket 427208, document 419999 (Mercantile Division). The Bank holds a general banking license granted by this Superintendency through Resolution No. 033-2005 of April 1, 2005.
2. The Bank is a fully owned subsidiary of Stanford International Holdings (Panama) S.A., a financial holding company incorporated under the laws of the Republic of Panama, registered in the Public Registry, microjacket 2003, registry 137356 (Mercantile Division). The sole stockholder of Stanford International Holdings (Panama) S.A. is Mr. Robert Allen Stanford.
3. The assets of the Bank are funded largely by takings from legitimate depositors, both domestic and foreign, with a rather small percentage accruing to the sole stockholder. According to the Banking Law of the Republic of Panama, these assets should be set aside to safeguard the interests of these depositors in Panama first, and the interests of the stockholders only after the former are satisfied.
4. In the event that the Court's investigations prove that the SEC allegations are true, the financial holding company which owns the Bank has a right to only the stockholders' equity in the Bank. The rest of the assets, funded by the legitimate depositors and other legitimate creditors, should come under this Superintendence's control so that we may liquidate them and satisfy these depositors and other creditors who are not involved in the alleged wrong doings of Mr. Robert Allen Stanford.

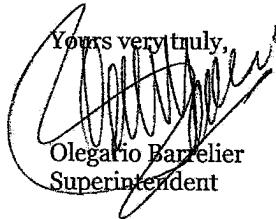

Page 3/
SBP-DS-N-1417-2009

5. In the meantime, those assets represented by investments in different securities in the custody of several brokers and financial institutions in the US, UK and the Swiss Federation are devoid of any management, which may negatively affect their market value, particularly under present financial circumstances. We feel that allowing the Interim Administrator appointed by this Superintendence to manage or, at least, close some of these positions would avoid any further losses and create a cash pool which would facilitate the final disposition of the assets for all involved.
6. The resolution of a problem bank under Panama's Banking Law goes through several stages, the first of which is administrative control, equivalent to an intervention. (Arts. 131, 132, 133) This stage is limited to 30 calendar days, which can be extended one time only for an equal period if justified to the Superintendence by the Interim Administrator. Obviously, the special circumstances surrounding this case will require this extension. The first thirty days expire at 7:00 am on March 20. The second 30-day period would expire on Sunday, April 19, which is transferred by law to Monday, April 20 at 7:00 am. This is the maximum timeframe we have to work with. At this time, the Superintendence must decide whether to reorganize the Bank, order its liquidation or return it to the control of shareholders. (Art. 140)
7. Chapter XVII of the Law covers the possibility of reorganization which includes the option of selling the Bank as a going concern or selling its assets piecemeal. We want you to be aware that there have been approaches from several groups to explore the possibility of buying the Bank or its assets. All of these groups have been fully informed of the Receivership Estate's control of the assets and all are awaiting further developments. If this were the promptest, least expensive way out, we would work with you to determine a fair price and a method of perfecting the sale.
8. At the time this Superintendence took over full administrative control of the bank, there were 63 employees. As of today 5 employees have resigned and we have approved a reduction of another 13 people with a total severance cost of US\$ 82,441.11. We will continue downsizing the headcount as we finish the take over phase and prepare for a possible liquidation of the bank. Total remaining severance cost is estimated at US\$1.2 million for all employees.
9. We have received at least 70 documented claims by depositors or legal firms representing customers whose business or health or personal plans have been negatively affected by the Bank's takeover. There are any number of letters and other correspondence from customers reclaiming their deposits. If our timeframe forces the Superintendence to order a liquidation of the Bank, we are obliged to pay back all deposits under US\$10,000.00 within the following 15 days. I enclose a copy of the deposit base strata as of 27FEB'09 showing that these accounts represent 3% of the total deposits and 60% of the depositors.

Page 4/
SBP-DS-N-1417-2009

Finally I would like to emphasize the hardship caused to the bank depositors, not to mention the negative impact on the Panama Banking Center, caused by the intervention of Stanford Bank (Panama) S.A. that this Superintendency was obligated to order after a significant part of the Bank's assets were frozen by the Court order. In this respect, I would like to ask you for a prompt solution of the present situation, stressing to you our commitment to cooperate with you in safeguarding the Receivership Estate, taking into account the order of preference of creditors and shareholders, under the above mentioned Panamanian Banking Law.

Yours very truly,

Olegario Barrelier
