[See Doc. 1745 at 3.] The Receiver estimated in his Sixth Monthly Report that “approximately \$1.1 million in additional fees and expenses [would] be necessary to complete CD claims processing and reconciliation through the sending of Notices of Determination.” [See Doc. 1731 at 3.] As of February 28, 2013, approximately \$104,000 of that additional estimated amount remains.

ONGOING ACTIVITIES

The following is an update concerning the activities of the Receiver and his professionals with regard to claims processing:

- 30,327 claims were received through both the prior claims process and the Court-approved claims process as of February 28, 2013. Of these claims, 18,398 are SIB CD or other SIB investor claims; 2,104 are non-CD claims; 9,413 are duplicates of claims already submitted; and 412 are late claims that were served upon the Receiver after the Court-approved Bar Date expired.
- Reconciliation activities regarding 17,899 of the claims (excluding duplicates and late claims) have been completed.
- 855 of the non-duplicative, timely claims are deficient due to a lack of required information on the claimants’ claim forms. Gilardi and, in some necessary instances, Baker Botts have contacted the claimants who submitted those claims

— whether through the dissemination of formal Notices of Deficiency or through more informal means of communication — to obtain the missing information. Further reconciliation activities concerning such claims cannot proceed without the required information.

- The remaining 1,748 claims are being manually reconciled by Gilardi and Stanford Staff and, in limited and necessary instances, FTI or Baker Botts.
- The mailing of Notices of Determination regarding CD claims commenced in January 2013 and will continue on a rolling basis until completed. As of February 28th, 11,840 such Notices have been disseminated.
- Baker Botts continues to draft and submit Monthly Reports to the Court regarding the claims process and to monitor and oversee the claims process and fees and expenses related thereto.
